

# Rathbone SICAV Multi-Asset Total Return Portfolio

## Investment objective

The objective of the sub-fund is to seek to achieve a total return in excess of 2% above sterling six month LIBOR over a minimum three year period. The sub-fund has a targeted risk budget of one third of the volatility of global equities as measured by the MSCI World Equity index. There is no guarantee that the sub-fund will achieve a positive return over this, or any other, period and you may not get back the original amount you invested.

Under normal circumstances the sub-fund invests mainly in shares from the UK and elsewhere and in other securities, including bonds and money market instruments. The sub-fund will ordinarily invest in these securities directly, but may gain exposure to them by investing in other collective investment schemes.
