What is this product?

Type

Shares of a sub-fund of Fidelity Funds SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

Term

The fund has a defined maturity date.

Objectives

Objective: The fund aims to achieve capital growth over the long term for investors planning to withdraw substantial portions of their investment in the year 2050.

Investment Policy: The fund invests in a range of asset classes such as bonds, interest bearing and money market instruments as well as eligible exposure to commodities from anywhere in the world, including emerging markets. These investments may be denominated in any currency and some of them may be below investment grade or unrated. The proportion of assets allocated to each asset class varies over time and the fund will increasingly favour lower risk investments as it approaches its target date, shifting to an increasingly conservative asset allocation.

The fund may invest in the following assets according to the percentages indicated:

collateralised and securitised debt instruments: up to 20%.

The fund may invest in currencies other than euro and, which may or may not be hedged to euro. The Euro to which the name of the fund refers is a currency of reference and not a currency of investments. The fund will not terminate at the target date but will continue to be managed in accordance with its investment objective and policy.

Investment Process: The fund is actively managed and references a blend of market indices (each a "Market Index") in order to set internal guidelines around the weightings allocated to different asset classes. The fund is managed to offer an optimized asset allocation between asset classes with different risk and return characteristics. The asset allocation has been designed to de-risk portfolio by migrating from a growth to a defensive asset allocation up to the fund's target date. The Investment Manager takes into account Sustainability Risks in its investment process.

For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

Benchmark: The fund references a blend of market indices (each a 'Market Index') to set internal guidelines around the weightings allocated to different asset classes. As the fund's exposure to different asset classes evolves over time in line with the fund's investment policy, the Market Indices referenced and their weightings will also change accordingly.

While the fund may take direct or indirect exposure to the components of the Market Indices, there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the Market Indices. The Market Indices are listed in the KIID and are represented by a blended index for the purposes of performance comparison. Further information on the current list of Market Indices as well as past weightings is available on request.

Base Currency: EUR.

Risk Management Method: Commitment.

Additional Information: You may sell (redeem) some or all of your Shares on any Valuation Day. As this is a non-distributing share class, dividends are re-invested.

This key information document describes a sub-fund of Fidelity Funds. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Funds.

The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from FIL Investment Management (Luxembourg) S.A.

These documents and details of the Remuneration Policy are available via <https://www.fil.com>.

The Net Asset Value of the funds is available at the registered office of FIL Investment Management (Luxembourg) S.A., and at www.fidelityinternational.com.

Depositary: Brown Brothers Harriman (Luxembourg) S.C.A.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds; who plan to hold their investment for a recommended holding period of at least 6 years; who seek capital growth over the recommended holding period; and who understand the risk of losing some or all of the capital invested.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product until the 2050-12-31.
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Additional risks: credit, leverage, emerging markets.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If FIL Investment Management (Luxembourg) S.A. is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 11 years. Markets could develop very differently in the future.

Recommended holding period: 6 years Example investment : EUR 10,000		If you exit after 1 year	If you exit after 6 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	2 640 EUR	1 820 EUR
	Average return each year	-73,6 %	-24,7 %
Unfavourable	What you might get back after costs	8 630 EUR	6 350 EUR
	Average return each year	-13,7 %	-7,3 %
Moderate	What you might get back after costs	10 900 EUR	17 480 EUR
	Average return each year	9,0 %	9,8 %
Favourable	What you might get back after costs	14 330 EUR	22 590 EUR
	Average return each year	43,3 %	14,5 %

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 11/2022 and 10/2021.

The moderate scenario occurred for an investment between 11/2013 and 11/2018.

The favourable scenario occurred for an investment between 01/2013 and 01/2018.

What happens if FIL Investment Management (Luxembourg) S.A. is unable to pay out?

The assets and liabilities of this product are segregated from those of FIL Investment Management (Luxembourg) S.A. There is no cross-liability between these entities, and the product would not be liable if FIL Investment Management (Luxembourg) S.A. or any delegated service provider were to fail or default.

Shares of this product are traded on a stock market and settlement of such transactions are not affected by the position of FIL Investment Management (Luxembourg) S.A.

This product does not participate in an investor compensation scheme.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 6 years
Total costs EUR	349 EUR	1 267 EUR
Annual cost impact (*)	3,5 %	2,1 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.4% before costs and 9.3% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1.0% of the amount you pay in when entering this investment.	101 EUR
Exit costs	1.0% of your investment before it is paid out to you.	99 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.0% of the value of your investment per year. This is an estimate based on actual costs over the last year.	95 EUR
Transaction costs	0.5% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	54 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 6 years.

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product.

Order Processing: Requests to buy, switch or sell fund shares that are received and accepted by the Management Company by 4:00 PM CET (3:00 PM UK time) on any Valuation Day are ordinarily processed at the NAV for that Valuation Day.
