Risks

Guinness Sustainable Energy Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund invests at least 80% in companies involved in sustainable energy or energy technology sectors; it is therefore susceptible to the performance of those sectors, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement, you may not get back the amount originally invested. For full information on the risks, please refer to the Prospectus, Supplement, and KID/KIID for the Fund, which are available on our website.

Simulated past performance in 10 year and since launch numbers. Performance prior to the launch date of the Y class of the Fund (16.02.2018) is a composite simulation for Y class performance being based on the actual performance of the Fund's E class which has an OCF of 1.24%.

Source: FE fundinfo net of fees to 30.04.26. Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The current OCF is 0.74%. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return. Graph is in USD.

Fund Profile

Aim

Long-term capital growth

Investment Case

Designed to benefit from opportunities associated with the transition to a sustainable energy system. We believe that over the next twenty years the sustainable energy sector will benefit from the combined effects of strong demand growth and improving economics of renewable energy supply. The sector will benefit from both public and private support for low carbon technologies.

Process

50% top down, 50% bottom up. Value bias in bottom-up stock selection.

Portfolio

Concentrated, typically equally-weighted portfolio of 30 positions. Majority of Fund invested in stocks over \$500m in size.

Investment Objective

An equity fund which invests in companies in the solar, wind, hydro, geothermal, biofuels, biomass and energy efficiency sectors.

The Fund is actively managed and uses the MSCI World Index as a comparator benchmark only.

For the avoidance of doubt, if you decide to invest, you will be buying units/shares in the Fund and will not be investing directly in the underlying assets of the Fund.
